PENINAH MUTHEU JOHN

Senior Digital Skills Trainer | ICT Educator | Curriculum Developer

P.O Box 134, Nairobi, Kenya • +254 758 912 845 • Peshy788@gmail.com

PROFESSIONAL SUMMARY

Dedicated ICT Trainer with 3+ years of hands-on experience educating youth in digital skills, programming, and creative technology tools. Holds a Bachelor of Science in Computer Science and a professional certification in Software Engineering. Experienced in competency-based training, curriculum design, and working with diverse, under-resourced learner groups. Adept at breaking down complex technical concepts into practical, engaging lessons. Passionate about using technology education as a tool for youth empowerment and socio-economic transformation.

CORE COMPETENCIES

Digital Literacy & Productivity Training
Adobe Photoshop & Illustrator
Digital Marketing & Social Media Strategy
Python, JavaScript, HTML/CSS, PHP
Adult Learning Facilitation
Monitoring, Evaluation & Reporting
Curriculum Design & Development
Microsoft Office & Google Workspace
Freelancing & Gig Economy Readiness
LMS Platforms & Ed-Tech Integration
Student Mentorship & Coaching
Web Development (Full-Stack Basics)

PROFESSIONAL EXPERIENCE

Information Technology Tutor / ICT Trainer

Institute of Advanced Technology (IAT) • Nairobi, Kenya January 2023 – Present

- Deliver competency-based instruction across multiple ICT disciplines including digital productivity, web development, and software engineering to diverse student cohorts.
- Design and continuously update ICT curriculum to reflect current industry trends, ensuring learners acquire relevant and marketable digital skills.
- Integrate hands-on coding projects, real-world simulations, and problem-solving exercises into daily instruction to reinforce theoretical concepts.
- Utilize modern ed-tech tools — including Google Classroom, Moodle, Replit, and GitHub Classroom — to manage coursework and enhance learner engagement.
- Provide individualized mentorship and academic support to students, helping them build confidence and overcome technical challenges.
- Incorporate STEM and robotics concepts into programming sessions to foster computational thinking and creative problem-solving.
- Maintain thorough assessment records, monitor student progress, and contribute to program evaluation and reporting processes.

Software Development & Programming Trainer

Educate! Kenya Nairobi, Kenya 2022 – 2025

- Trained 100+ students in programming fundamentals including Python, JavaScript, and HTML/CSS, achieving high course completion and practical skills transfer rates.
- Designed engaging curriculum covering coding fundamentals, web application development, and software engineering principles aligned with industry standards.
- Adapted instruction to diverse learner backgrounds and skill levels, consistently maintaining high engagement in group and blended learning settings.
- Created comprehensive coding exercises, projects, and assessments that reinforced learning objectives and built learner portfolios.
- Updated training materials regularly to incorporate emerging technologies and evolving best practices in software development.
- Communicated complex technical concepts clearly to learners with varying prior exposure, developing strong explanatory and facilitation skills.

EDUCATION & QUALIFICATIONS

Bachelor of Science in Computer Science (ICT)

Machakos University • Kenya Sep 2020 – Oct 2024

Second Class Honors (Lower Division)

- Relevant coursework: Programming Languages, Software Engineering, Web Development, Database Systems, Data Structures & Algorithms, Computer Networks, Robotics Fundamentals, ICT Curriculum Development.
- Led peer tutoring sessions in programming courses; organised coding workshops; developed educational materials for class use.

Professional Certification in Software Engineering

Power Learn Project (Africa) • 2024

- Intensive full-stack software development programme covering modern programming practices, project-based learning, and industry-standard tools.

TECHNICAL SKILLS

Creative Design	Adobe Photoshop, Adobe Illustrator, InDesign (working knowledge), Canva
Digital Marketing	Social Media Strategy, SEO Fundamentals, Content Planning & Scheduling
Programming	Python, JavaScript, HTML5/CSS3, PHP, Java, React (basics), Flutter (basics)
Productivity	Advanced Microsoft Office Suite, Google Workspace, Professional Digital Communication
Ed-Tech Tools	Google Classroom, Moodle, Canvas, Kahoot, Quizizz, Zoom, MS Teams, Replit, CodePen
Dev Tools	VS Code, Git, GitHub Classroom, MySQL, PostgreSQL
Languages	English (fluent), Kiswahili (fluent)

KEY ACHIEVEMENTS

- Trained 100+ students across multiple ICT cohorts with high completion and skills-transfer rates, earning consistent positive feedback for clarity and approachability.

- Developed comprehensive ICT curriculum spanning digital productivity, creative design, programming, and web development — adopted across multiple training cycles.
- Integrated freelancing and gig-economy readiness modules into training, equipping students with practical client communication and project management skills.
- Built and maintained a positive, inclusive classroom culture within diverse learner groups of varying technical backgrounds and learning levels.
- Continuously updated training content in response to emerging digital trends, ensuring programme relevance and industry alignment.
